Many restricted securities may be resold in the secondary market in transactions exempt from registration. Such restricted securities may be determined to be liquid under criteria established by the Board. The restricted securities may be valued at the price provided by dealers in the secondary market or, if no market prices are available, the fair value as determined in good faith in accordance with the Fund's Pricing and Fair Valuation policies. Portfolio Funds generally are restricted securities that are subject to substantial holding periods and are not traded in public markets.
